Art Unit: 1754

It is noted that in claim 1, line 6,8,10, "the precursor material" lack(s) proper antecedent basis in the claim(s) and it should be recited as -- the precursor ceramic material --.

It is noted that in claim 2, "S" should be the delta symbol, see the original claim 2, and not "S".

It is noted that in claims 4,6,8,10, "the resultant nanosize powder" lack(s) proper antecedent basis in the claim(s) and "resultant" should be deleted.

It is noted in claim 5, that "NaALO2" should be -- NaAlO2 --.

In claims 5,7,9,11,13, "the precursor" should be recited as -- the precursor ceramic material --.

It is noted that in claim 15, line 6,8,10, "the precursor material" lack(s) proper antecedent basis in the claim(s) and it should be recited as -- the precursor ceramic material --.

In claim 17, "the precursor" should be -- the precursor ceramic material --.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1,15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 1,15, "decomposing the fugitive constituent to leave the non-soluble constituent by" is new matter. Specific support in the instant specification needs to be pointed to.

In claims 1,15, "the decomposing is without deposition or precipitation of dissolved fugitive constituent" is new matter. Specific support in the instant specification needs to be pointed to.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 10, "the non-soluble residue" lack(s) proper antecedent basis in the claim(s).

Applicant's arguments filed January 2, 2004 have been fully considered and they are persuasive.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
